

Dudu Tucci & Brasil Power Drums

Hot Rhythms from Brasil: Passion to your event

- original grooves
- outstanding breaks
- contemporary effects
played by masters

The show **Morena do Sol**, born out of **samba and sun**, is a cheerful and lively music, an invitation to dance, to listen to and let yourself get carried away by. The pulsating grooves, interspersed with suspenseful breaks, create beautiful musical moments, supported by and enriched with the charming voice of Mariana Viana and André Bayer on guitar.

Tropicalismo meets contemporary grooves.

From the relaxed **romantic ballad** to the thrilling rhythms of **samba batucada, maracatú and funky grooves**, our music truly embodies and celebrates Brazil's unique atmosphere. Modern **samba-reggae** and the graceful beauty of the **afoxés** create contrast and unity at the same time.

Dudu Tucci, master of percussion, opens the show with a **conga solo**. His solo on the **repinique** and the **timbal chorus** played unisono by 4 drummers clearly express the Brazilian roots of the band leader.

The music of Brasil Power Drums is purely acoustic, and truly handmade.
